# Product Overview

MastaShield by Siniat is a high-performance standard plasterboard designed for internal wall and ceiling linings in both residential and commercial projects. It provides a smooth, durable surface ready for painting, wallpapering, or other decorative finishes. Manufactured with sustainability and quality in mind, MastaShield is a versatile solution for diverse construction needs.

## Sizes

### Thickness Options:

- 10mm: Ideal for most internal wall applications.
- 13mm: Recommended for ceilings and areas requiring enhanced rigidity.

### Width Options:

- 1200mm
- 1350mm

### Length Options:

- Standard sizes range from 2400mm to 6000mm.
- Custom lengths available upon request (minimum order quantities may apply).

# Thickness

## 10mm Plasterboard:

- Best suited for internal walls in residential and light commercial projects.
- Cost-effective and lightweight for easy handling.

## 13mm Plasterboard:

- Ideal for ceilings due to its superior strength and reduced sagging over time.
- Recommended for commercial walls requiring additional durability.

# Information

## **Sag Resistance:**

- 13mm MastaShield is specifically designed to minimize sagging in ceiling installations, making it the preferred choice for ceiling fixers.

## **Edge Profiles:**

- Available in Recessed Edge (RE) for seamless jointing and finishing, ensuring a smooth and professional look.

## **Lightweight Design:**

- Despite its durability, MastaShield is lightweight, reducing strain during overhead installations.

## **Ease of Cutting and Handling:**

- Can be easily scored and snapped for precise cutting, saving time during installation.

# Sustainability

- **GreenTag Certified:** Independently certified for eco-friendly performance.
- **Carbon Neutral:** Available under Siniat's Opt-in Carbon Neutral Program.
- **Recycled Content:** Manufactured with heavy-duty recycled paper.
